## Index of Issues

---

### SOME NOTES

This Index of Issues is based on scans found at HathiTrust digital library. For that reason, large parts of Volume III and Volume IV are missing.

Listing is ordered by appearance of article within the issue.

In issues #7, #8 and #10 of Volume II on the last page appears an advertisement titled "A Cheap Ranch" which is not included in this Index. Occasional quotes sometimes appear in issues and are not listed here.

Issue #9 of Volume II does not appear to have the end page, and therefore its contents are not listed.

Names of authors are listed as they are credited in the journal itself. For uncredited articles, author is listed Uncredited, and for "Pointers" section, as well as for material on the last page, Editor is listed as the author unless specified otherwise.

In issues #1 and #18 of Volume III, the exact date is given on the issue, while in other issues only month and year were specified.

Issue #1 of Volume III has a misprint in the scan where its volume is listed as IV.

Volumes III and IV had an untitled book advertisement section at each issues' end which is not listed in this index.
